

Wait For Us

*Although life's journey may have seemed long
and in the end you traveled alone,
we were there with you,
so do not forget our faces on you way home.*

*For we are your family
who cherished your love,
remember to wait to wait for us
when you get there, in the heaven above.*

*God has let the storm pass
and now you are finally free,
Again to be independent
because that is truly what you wanted to be,*

*And although our tears may flow
because your smile is gone,
It will be forever entrenched in our hearts,
carved in like stone.*

*Grandma, eternity is yours,
so take your time and don't rush,
Kiss Bubba, Bobby and Lorenzo for the family,
stay were you are, and please wait for us...*
